DETAILED ACTION

1. The amendment filed February 9, 2004 has been entered.

Claim Rejections - 35 USC § 112, 1st paragraph

2. Claims 1-8, 14-18, 20-23, 79, 83 and 84 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The original disclosure does not appear to provide support for the recitation "wherein said infeed rail is configured to permit unrestricted adjustment in the elevation of said infeed extension relative to said work surface" as now set forth in claims 1 and 15 and as best understood. Rather, support is provided for an infeed rail that is disposed below and supports an infeed extension. Thus, the infeed rail as disclosed, when considered in combination with the infeed extension as disclosed, clearly restricts adjustment in the elevation of the infeed extension relative to the work surface, particularly in a downward direction wherein the infeed extension cannot possibly be adjusted below an elevation wherein the downward adjustment of the infeed extension is stopped or otherwise obstructed by the infeed rail.

Application/Control Number: 09/134,854 Page 3

Art Unit: 3724

Claim Rejections - 35 USC § 112, 2nd paragraph

3. Claims 1-8, 14-18, 20-23, 79, 83 and 84 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 13-15, the recitation "wherein said infeed rail is configured to permit unrestricted adjustment in the elevation of said infeed extension relative to said work surface" is vague and indefinite as to what structure is being set forth, for example, it is not clear how the infeed rail is "configured" to permit the unrestricted adjustment as claimed.

In claim 15, lines 12-14, the recitation "wherein said infeed rail is configured to permit unrestricted adjustment in the elevation of said infeed extension relative to said work surface" is vague and indefinite as to what structure is being set forth, for example, it is not clear how the infeed rail is "configured" to permit the unrestricted adjustment as claimed.

Response to Arguments

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Application/Control Number: 09/134,854

Art Unit: 3724

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark F. Dexter whose telephone number is (703)308-1404. The examiner can be reached Monday through Friday during normal business hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan N. Shoap can be reached on (703)308-1082. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
